Dean's Ultra® Connectors With
High Power 10ga Wires

castle

P/N: 011-0002-00

castlecreations.com

This harness will connect two battery packs in series. You will effectively combine the voltages of the packs. Example: two 3S (11.1v) packs will have the output voltage of 6S (22.2v) when connected with this harness.

Note: You must always use identically prepared packs with this harness. Both packs must be fully charged and properly balanced. Both packs must be by the same manufacturer, have the same C rating, and both must have the same capacity and level of charge at all times. Failure to observe this warning will result in damage to your batteries.

Designed in Kansas. Components manufactured in the USA, Mexico, and China. Castle Creations, Inc. warrants this product to be free from manufacturing defects for a period of one year from date of purchase.

This product may contain chemicals known to the State of California to cause cancer and or birth defects or other reproductive harm. Do not ingest this product, it won't make you any faster.

This product contains components made by W.S. Deans Company under U.S. Patent No. 5,533,915. Deans Connector is a trademark of W. S. Deans Company.
