

SIDEWINDER 8TH

REPLACEMENT CASE DISASSEMBLY AND REASSEMBLY INSTRUCTIONS

To remove fan shroud:

With thumb and forefinger squeeze the fan shroud in the location indicated the 2 red arrows. This will allow the snap features to be released and the fan shroud to be removed.

To replace the fan shroud:

1. Align the tabs on the fan shroud with the respectful slots on the case top.
2. Firmly press down until the fan shroud snaps in place.
3. Be careful not to pinch the fan wire between the fan shroud and the case top, this may damage the fan wire.
