SURFACE

1:18, 1:14 AND 1:12 SCALE

The Mamba Micro X will increase the performance of 2WD or 4WD vehicles over 1.5lbs and up to 2.25lbs. It's the new **SENSORED COMPATABLE** controller with **AUXILIARY WIRE** technology from Castle.

- The Mamba Micro X performance is powerful, smooth and efficient. It runs both **SENSORED AND SENSORLESS** motors. (See the packages available with the Castle 0808 (4 pole) sensorless motors below.)
- Brand new **AUXILIARY WIRE** technology, an impressive tool that allows for on-the-fly adjustments using a transmitter. You can dial in torque control while at the track or adjust maximum throttle setting for passing the controls to another driver.
- **WATERPROOF** design allows for use in nearly any environment.

Input Voltage:	MIN: 2S LiPo; MAX: 3S LiPo (12.5V)	BEC Specification:	Adjustable: 5.5V or 7.5V (2A Peak)
Waterproof:	Yes	Weight (w/wires):	1.20 oz. (34.01 g)
On/Off Switch:	Yes (waterproof)	Size:	1.61" in x 0.75" in x 1.10"

SENSOR SUPPORT	AUXILIARY WIRE FUNCTIONALITY	CASTLE LINK TUNING
