

Industry-leading **waterproof** 1:10 scale sport brushless ESC capable of handling up to 3S LiPo or 9 cell NiCad/NiMh power.

- The Sidewinder 3 is a **GREAT VALUE** for 1:10 scale off-road, on-road and rock crawler vehicles running up to 3S LiPo power and weighing 5 lbs. or less.
- **WATERPROOF:** the ideal sport ESC for crawling water-filled trails, short-course truck on rain-soaked tracks and 4WD rips across snowy or muddy fields.
- **TUNEABILITY:** Customize the Sidewinder 3 performance via Castle Link (Castle Link USB adapter sold separately).

*"I run one in my SCX10 with a 35T brushed motor and absolutely love it, it takes any abuse I put it through."*  
- Customer Brant M.

*"I ran it in my Rustler and lets just say it was like stuffing an 800 hp V8 in a shopping kart. It blew apart the tires and tranny real quick. Fun though!"*  
- Customer Brett R.

<b>Input Voltage:</b>	MIN: 2S LiPo; MAX: 3S LiPo (12.6V)	<b>BEC Specification:</b>	Adjustable: 5.5V or 7.5V (2A Peak)
